

Geami WrapPak® EX

Portable packing,
perfect presentation

Presentation

Perfect in-the-box presentation enhances the customer unboxing experience

Time savings

Material can be created on demand in any location

Cost effective

Less material is needed to provide optimal protection

Wrap your products for a perfect presentation

Geami WrapPak ExBox (EX) is a self contained, disposable and recycleable combination of die cut kraft paper and tissue interleaf that is used to cushion and protect fragile items during shipment. The Geami WrapPak EX expands the paper into a 3D honeycomb structure, providing a unique and environmentally friendly wrapping product. The small footprint of the Geami WrapPak EX allows it to be placed on any table top or packing area, providing 750' of finished wrapping material.

Go Green

Our company works with FSC and SFI certified suppliers. Paper is a recyclable and a renewable source.
